No, you know what? I follow Cassandra Clare on Tumblr.

I do it so I can see all the bullshit first hand. The anti-bullying post, for example, was a REAL WINNER and I laugh at how everyone found her so sincere and heartwarming and Jesus fucking Christ. If you knew what she had done in her past, how far she went to bring the people she didn't like down. This includes fandom-wide shunning, phone calls to their house, and ATTEMPTS TO KICK THEM OUT OF THE UNIVERSITY THEY WERE ATTENDING.

Nonsense bullyi

Nonsense bullying is one thing, but you know what really beats me up the most? People will hunt down

the kids who tormented an older woman on a bus, people will put \$2 million dollars into a game version of a pointless and fun web comic in record fucking time, but no one can expose Cassandra Claire.

Because Cassandra Claire is really trying that hard to keep it all under wraps. Those who try to bring this truth to light, ohhhh, those who try are told that they are the bullies, bringing out the truth about this woman and her absurd past.

CassyPants,

How is it that these blogs that have nothing but evidence to the hellish nightmare known as your fanfiction days are considered bullies? I followed those blogs too, and they were good people, willing to tell the truth when you continue to refuse that it exists. And it's finally coming to light. Since nastyclare (not the greatest name but I'm not complaining) came about, they've spawned other blogs that wanted to help them including the more recent one I follow. They are no longer scared of your threats or your ravenous fans.

I have no respect for you because of this. You've basically made your second job into this supreme effort to hide. You know what would gain my respect? Three words. Nothing much.

Fucking. Own. Up.

Honestly, I'd have at LEAST a shred of respect for you if you said, "You know what? I'm not that great. I did this horrible bullying. This was my past. And I'm ashamed of that past, which is why I tried to hide it from you, my fans."

I'm sick of your bullshit, and I'm sick of you milking out this nonsense. Fucking have a dream and write about it. Get a fucking great idea. Get some goddamn creativity into your head or step aside so we creative folk can actually get into the business the way you're supposed to get in. With hard work and originality.

Sincerely,

Someone who works hard and has at least a speck of originality in her.

I hardly curse this much in reviews anymore, but dear god I couldn't hold it in for this one. I'm just so sick and tired of Clare's bought fame, hidden ridiculous garbage, and the fact that she can't be mature and TELL IT LIKE IT IS SO HER GUILT CAN GO AWAY. Dear god.

The Bane Chronicles Audiobook

This book, unfortunately, did nothing for me.

I remember Magnus Bane being one of my favorite characters of the original TMI series (if you can remember that far back, with all of Clare's publications and planned publications since then), but it's been so long since I read *City of Lost Souls* that all of my emotional attachment to him has disintegrated into ash.

For someone more connected to this series than I am, this may be a great addition, full of intriguing backstory and unique Magnus humor. B This book, unfortunately, did nothing for me.

Original Pre-Review:

(Art from the tenth anniversary edition of City of Bones!)

I was a little apprehensive going in to this, because I didn't realize that all of the stories were cowritten with other authors. But honestly? They blended together very well and read just like all the other Shadowhunter novels thus far. Each of these stories are about fifty pages long, but it was so much fun to dip my toes into all these different cities, years, and adventures.

The Midnight Heir was easily, hands down, without question, my favorite story in this entire collection. And I am willing to grovel, beg, plead, maybe even commit a minor felony, to be able to learn more about James and Grace. (Oh my gosh, my lovely friend Lance just told me about The Last Hours and I'm happier than I've ever been!) But I am going to break down each short story with my thoughts, opinions, and individual star rating!

½ What Really Happened in Peru -

Humans did not live forever. They could only hope what they made would endure.

more James and Grace in the future. Also, why does every Herondale just break my heart over and over again? I honestly do not understand.

½ The Rise of the Hotel Dumort - ~...~...

"Nothing is permanent," Magnus said. "I know this from experience. But you can get new things. You can meet new people. You can go on."

I loved how this short story was set in 1929 New York, while Magnus is trying to run a speakeasy. And seeing his magic camouflage this secret pub into a tea party was pretty much the best thing ever. Sadly, that's all I truly enjoyed about it. I mean, I guess seeing Hotel Dumort almost become a portal to Hell was pretty cool, too. But this story, and the new characters, just didn't win me over as hard in this one.

½ Saving Raphael Santiago - ~...~...~...

"Love did not overcome everything. Love did not always endure. All you had could be taken away, love could be the last thing you had, and then love could be taken too."

My heart, my poor broken heart. This literally felt like torture to read after finishing City of Heavenly Fire. Raphael Santiago was also a character that didn't hide his pain and anger; and I always respected that. But everything he had to go through? Man, oh man. I will say that this story got pretty dark and trigger warnings for kidnapping, murder, and maybe even pedophilia. Louis is for sure the most evil person I've seen in the Shadowhunter world yet. Basically, in 1953, Magnus is a private detective, and Guadalupe, Raphael's mother, hires him to find her son. This story just made me feel every single emotion. I also enjoyed seeing Hotel Dumort start to become the vampire lair. But the shining star of this book was obviously Raphael and his mother and the unconditional love that a mother should always have for her child. Ah, I didn't ask for these tears all over again.

½ The Fall of the Hotel Dumort - ~...

"Because in the end nothing is worse than seeing the fall of one you loved. It was somehow worse than losing a love. It made everything seem questionable. It made the past bitter and confused."

This was easily my least favorite in the collection. Like, it read like I was back in elementary school watching police officers tell us about the D.A.R.E campaign. Basically, this one is set in 1977 New York, and Camille and her vampires are getting high from drinking the blood of humans on drugs, and they get really addicted. I did enjoy the ending with the memory spell, but that was about it.

½ What to Buy the Shadowhunter Who Has Everything (And Who You're Not Officially Dating Anyway) - ~...~...~...~...

"This was love, new and bright and terrifying."

Firstly, I will say that it's really skeezy that Alec was indeed seventeen when he and Magnus started at least kissing one another. I don't want to make light of that whatsoever, and I completely think it was wrong. But if you ignore that, I really loved this short story and seeing a glimpse in the Shadowhunter world before everything went down in TMI. I also really loved the scene with Izzy and Magnus; it was pure, perfect, and everything I've ever wanted. Also, I love how this heartfelt story

was going on with a blue demon just hanging out in the apartment.

½ The Last Stand of the New York Institute - ~...~...~...~...

It was one of the few things he had to believe in, the possibility of beauty when faced with the reality of so much ugliness.

The start of this novel and the homophobia really surprised me. I actually loved how Cassie Clare blatantly brought it up, rather than using metaphors with the oppression of the Downworlders, even though it hurt to see. But this short story also made me fall even more in love with Catarina, who is working at an HIV clinic because even people in the medical field can hold hateful prejudices. But the middle of this story, we got to see the behind the scenes start of Valentine and his (mostly) brainwashed circle. But the end of this story was the shining light! Seeing Tessa accept Clary with literal open arms made me tear up. Seeing her talk about her loves, her losses, and giving Jocelyn's child a new start was really beautiful and made me very emotional. I loved this one, friends.

½ The Course of True Love (And First Dates) - ~...~...~...~...

And silver, though few people knew it, was a rarer metal than gold.

Oh lord, this was adorable. This story shows Magnus and Alec's first date and it was pretty sweet. Again, I will say that it is incredibly not okay that a 300+ year old warlock is dating a seventeen-year-old, but if you take that away from the equation then it was a really sweet and realistic depiction of an awkward and messy first date. Well, besides going to bar and having to fight a werewolf together.

½ The Voicemail of Magnus Bane - ~...~...

Please don't ever tell Jace I said he was a badass.

This short story is just a transcript of voicemails that the Shadowhunters left for Magnus after the end of City of Lost Souls, when he and Alec broke up. It just wasn't enjoyable and was a lot of harassment even though I know that it was coming from a place of good. I just, thought this was honestly a bit pointless, but I know it was supposed to be heartwarming. I will also say that I think it was a really poor choice for a concluding story, because it for sure finished the entire anthology on a low note.

I gave The Bane Chronicles three stars overall, because out of a possible 55 stars (5 stars possible for each of the 11 stories) this collection accumulated 35 stars (~63%)! But I really do think this is such an important addition to this world, and I very much feel like it is a necessary read. Even if it just means that you get to meet James Herondale.

I feel like I enjoyed this more by reading them all together.

Woah looking through the comments all I can see is hate....for Cassandra Clare and how she is milking the fanchise,for a start:

I really enjoy short stories that let you see more of your favourite books. A little prequel there, a scene told from another POV. But you can also kill a story with too much information. I need room for imagination. And Clare fills every freaking space with hers. It's real, she loves her own characters so much, she's her own biggest fan and she needs to calm down.

Now, this doesn't mean it was all bad. Because there's Alec and then there's Isabelle and they're my favourite characters in this series. The cute little scenes between Magnus and Alec made me giggle and smile. I'm so glad for their existence.

Honestly, Cassandra Clare needs to cut the crap and get it over with. I just can't deal with self-absorbed, self-loathing, tragic, secretly good-hearted and loving characters with unnaturally beautiful faces and the same boring sass anymore. Because that pretty much sums it all up. Every single one of them.

I doubt it comes as a surprise that I will not be reading the Bane trilogy.

The Bane Chronicles Summary

IT HAS MAGNUS BANE.

MAGNUS BANE!!!!!!

What more do ya want??

rereads book for the 6th time

So, back in the end of 2007, I was one of 'those' girls. You know, the ones that built shrines for Clare's writing ability, who desperately wanted to live in the world she created and the ones that proclaimed City of Bones as the best book evah?! <---Yeah. That annoying chick. Trust me, I regret it.

I want to use the "I was young and stupid" excuse and the "I didn't know good quality YA back then", and although they are valid and certainly true, the thing is, I do like The Mortal Instruments (So, back in the end of 2007, I was one of 'those' girls. You know, the ones that built shrines for Clare's writing ability, who desperately wanted to live in the world she created and the ones that proclaimed City of Bones as the best book evah?! <---Yeah. That annoying chick. Trust me, I regret it.

I want to use the "I was young and stupid" excuse and the "I didn't know good quality YA back then", and although they are valid and certainly true, the thing is, I do like The Mortal Instruments (minus the last two installments, but I'll get to that). At first I wasn't that interested in the book, but City of Bones grabbed my attention and earned my genuine affection, and although I really, really want to lower the rating or take it out of my favorites because now I acknowledge how flawed the books are, I won't because I would be betraying a part of myself that will always have an appreciation for these books.

Having said that, I really, really want Clare to just freaking stop. As someone who is somewhat of a fan of all of her books, one would think I am eagerly expecting more and more installments in this franchise. But the truth is that I am sick and tired of this. I keep spending my money on expensive hardcovers just so that I can feel like I've been slapped in the face with the mediocrity of the storyline and storytelling, as was the case with the expansion of The Mortal Instrument: City of Fallen Angels and City of Lost Souls, or to feel betrayed by the glaring similarities between The Mortal Instruments and The Infernal Devices. And now another trilogy is coming? A new compilation of essays? A guide on the world of the Shadowhunters? Another compilation of short stories? No. Please, just no.

It's almost like Clare is a one-trick pony. Move on! Prove you can do something else! I know it's hard to invest so much time in the creation of such a complex world, but you need to let go and improve yourself as a writer. J.K. Rowling built one of the best and most complex worlds in the history of literature. She told her story and she was done, because she knew that, as a writer, she can do more and it is also her responsibility to do more.

The Bane Chronicles

The more I think about this, the angrier I get and the less I like her books, so I'll just leave it at that. I might check this out, but I won't promise anything. After I'm done with Clockwork Princess, I don't plan on following any other Shadowhunter any time soon. ...more

The only redeeming quality was the excellent world-building and Magnus Bane. As I read *City of Ashes* and *City of Glass* I felt the same way and decided that was a good place to stop. I have never read *City of Fallen Angels*.

Then, as I heard all the ravings from fans about how much better TID was, and all the raving about Will and Jem, I became curious and wanted to know which side of the love-triangle I would fall on. So I read *Clockwork Angel* and yes, it is much better. It introduced me to Jem, who is one of the best things Cassie has ever created, the story was very interesting, and Tessa is somewhat better than Clary. At least I don't actively dislike her. But there is one major drawback. Will Herondale is one of the worst things I have ever seen created on paper. I cant even tell you how much I hate him because words do not suffice.

I am always somewhat scared to start a new Cassie Clare book because her world is amazing and it has a lot of potential to impress me but I just seem to hate what she seems to think is a good romance and a good romantic lead. I do intend to keep trying though, by reading each of her new series. But as I said, Magnus Bane is one of the redeeming characters she has created, and I was excited to read about him in his own world.

Each story in this book was interesting in its own right. I won't say which was my favourite because they were all interesting, entertaining, funny, and they all taught me something new about Magnus Bane. That is the best thing about this book. The overall experience of getting to know Magnus Bane better. He never received this kind of undivided attention before and I feel like I know him intimately now. I don't know how much he appeared in the latter books of TMI, but this gave me a whole new view of him and I love him even more. He is an amazing warlock and an amazing person.

I loved seeing the friends he made over the years, the lovers, how he treated people, including Shadowhunters; how he tried to save Raphael, Camille, and innocent werewolf families. He is a hero.

But he never stops being Magnus either. He shows up to battle in hot pink. I love his sense of humour too, his sarcasm. That is something I already knew about him, but I really enjoyed seeing more of it. Two side of him worth loving.

I also loved seeing him with Alec. I enjoyed Alec in the books as well, but its different when you see him as Magnus sees him. I never knew Alec was so insecure and shy and good. I loved the way Magnus described him and the way he made him feel. It makes me reconsider finishing TMI, just to get a few more glimpses of Magnus and Alec together. I now have an incredible love and respect for Magnus Bane. I love him more than this series can contain. He is too big for his world. I will keep trying with Cassie Clare, but I have no reason to expect to find anything as great as this by her in the future.
