Welcome to Shadowhunter Academy

By Cassandra Clare

Welcome To Shadowhunter Academy

People say that this tale isn't the best out of the bunch and if that's so, The Shadowhunter Academy must be fan-flipping-tastic (I mean of course it is going to be since it's written by Cassie & Sarah & Maureen)!!!

SIMON I LOVE YOU! Going to get to the next novella ASAP

WE HAVE THE TITLE!!!!

Tales From The Shadowhunter Academy

This one goes after CoHF, right? I can't believe it. Simon.... my baby is gonna be a Shadowhunter.

My emotions are out of control right now.

I need this, I want this more than anything.

YEAH!!!! I AM SO EXCITED.

Please, Cassandra, give us more details and a release date and the book!!!

I don't care if people think Cassie is going too far.

WTF Clare?

Another one.

Will you ever stop?

I'm starting to wonder if this is an addiction. Do you need to go to Shadowhunter rehab?

Okay...so the book focuses on Simon.

Simon being the main character was probably one of the few highlights for me in what was otherwise a very 'meh' book.

For those of you who aren't familiar with the term, let me explain:

- Meh refers to ice-cream that isn't blow-your-mind yummy but isn't disgusting either
- It can be used to talk about that one relative of yours you only see at the annual family BBQ
- It's the word Harry Potter fans use to describe characters like Ernie Macmillan or Hannah Abbot

- It's the word Harry Potter fans use to describe characters like Ernie Macmillan or Hannah Abbott...or Hufflepuff in general (no offense at all to any Hufflepuff lovers! It's a great house.)

To sum up: if something is 'meh' it just is. It doesn't make you ecstatic, it doesn't wow you, and it also doesn't make you upset/annoyed. It conveys complete indifference.

I love Cassie Clare's writing. But I feel like the Shadowhunter concept has been dragged out as far as it can go. It feels sort of...boring, you know, reading a book full of characters I've already read about in six books (not counting the other novellas/spin-offs).

Do I need to rehash Isabelle and Simon's relationship?

Nope. Been there, done that, got the t-shirt.

Do I need to be told again how much of an adorable dork Simon is?

Nope. Been there, done that, got the \$5 souvenir.

Welcome to Shadowhunter Academy

Do I need to be reminded that Simon and Clary are great as friends?

Nope. Been there, done that, saw him get rejected, got a box of tissues.

Do I need even more explanations of how the Shadowhunter world is run?

No. Just...no.

Seeing that this series is centered on a Simon who has completely lost his memory (six books worth, I might add) we, the reader, are forced to take a trip back down memory lane. Nearly every chapter is full of flashback moments that are a little tiring at times.

It just doesn't feel like a unique book about Simon. It kind of feels like Cassie re-wrote City of Bones, except the main character has memory issues, is male, and is not a redhead.

Hopefully the next few books in this spin-off take the plot to higher levels and really bring home a new tale that truly showcases the Simon we know and love :)

Pre-reading review:

Simon's getting his own book, guys!

After everything the poor guy's been through in The Mortal Instruments series, he deserves to have a whole library dedicated to him. It's about time he got his chance in the spotlight! ...more

Anyhow, here we see how Simon struggles with not remembering everything that happened and we also see how difficult is for everyone else. They, who love him so much and expect him to remember a little more everyday, but that doesn't happen and Simon is afraid, disappointed on himself and lost, so he goes to the Shadowhunter Academy so he can, maybe, be that hero again. Soon, though, he will realize that things aren't the way he expects them to be and he will have to let go in order to move on.

Cassie,

I missed these characters so much but damn, watching them struggling was really hard for me. I cannot really tell you how hard it was. It's like they can't really catch a break. Man.

Anyways, I liked how the Academy was set, like we all know how Nephilim are so that wasn't a big surprise but what I absolutely adored was George Lovelace. Yes, Lovelace.

I wasn't prepared for the emotion I felt just by seeing that surname, sue me.
And he was so damn awesome, I loved him.

And then we have my girl Isabelle, *sigh* she was just Izzie, amazing.

I mean, going there and claiming him? AWESOME.

And you know how I feel about her, right? Like it's her.

And then we got the end. Bad Cassandra, bad.

This story was such an emotional one because we relived some of the losses we got in CoHF and it was all raw new.

I need to read the rest of this. ...more

I really enjoyed this! Mostly I just love Simon a lot because Simon is the best.

I would definitely not want to go to Shadowhunter Academy at this point tho, it seems intense and also terrifying.

Oh, goody, more Shadowhunter books!

I remember reading a review (can't remember which sadly) where the person stated the next thing we know Cassie will be writing a book about Simon's time as a rat. Well, looky here.

Welcome to Shadowhunter Academy was the first novella in Cassandra Clare's new bind up. I really enjoyed the take on the shadowhunter world from Simon's point of view. Well, this was awesome and heartbreaking and funny and bittersweet, all at the same time.

Simon feeling all that, not knowing why and wanting to escape from all the pain was the saddest thing, but I'm sure he's going to find himself again. Maybe not the person he used to be exactly, but the one he wants to be.

So, if you're a TMI fan, read this soon. I'm so looking forward to the other short stories, particularly The Lost Herondale. Hurry up, time! :)

And knowing to George I have nothing but good words for him, I think it will be a great support for Simon in the process of initiation, which makes me very happy because he will not be alone ... So I'm

I read Vacations from Hell, which is a book full of short stories about how a holiday can go bad, and Clare wrote a novella in it. Surprise, surprise I loved it, it was too short and non-closed of course, still I saw some original ideas in it so I don't think she has no talent whatsoever.

I will not say anything about her personality because I don't know her, yeah I heard all the gossips about her bullying others etcetera etcetera but I can't form an opinion because I wasn't there nor I know personally anyone who was involved.

Meanwhile I'm going to tell you how disappointed I am after reading her last book in the Mortal Instruments series, it was pretty bad and failed all my expectations. What upsets me is how much people love it, as a reader and book lover it's sad to see how better written books get worse rating just because those books are not so advertised so are read by less people.

I will not read any other books in the Shadowhunter World, though if Clare writes something new which I'll happen to like I'm going to read it without a second thought.

Here's my review of City of Heavenly Fire:

Oh, by the Angel. I finished CoHF two days ago and now I find this and all I can say is: whatever complaining will come with, I'm in. It's Simon you guys

I don't know why, but recently, I have had a thing for novellas. Back in the day when I first started reading, I loved reading with physical books. I wasn't a huge fan of ebooks and reading online. And I still feel that way, but recently, I had no choice but to read on my phone because there are some short stories that haven't been released in a bind up. Or there are some really good books online that are not released in physical form. I really love The Mortal Instruments and The Infernal Devi I don't know why, but recently, I have had a thing for novellas. Or there are some really good books online that are not released in physical form. I really love The Mortal Instruments and The Infernal Devices. I knew that this series came out but I was waiting for the book bind-up. Michelle, one of my friends on Goodreads recommended this to me, but I was still waiting until the physical book with all of the novellas came out. But then I watched Christine's video, and she convinced me and I felt that I had to read this ASAP and catch up with everything because if you don't read this before Lady Midnight, apparently you will be spoiled... And I don't want that. (Christine is one of my favorite booktubers, her YouTube Channel is called Polandbananasbooks, if you haven't heard of her, I definitely recommend you watch her because she is awesome!)

I think I might jump into spoilers now because I NEED TO DISCUSS THIS BOOK!

“I am here to determine my relationship.”

This is a story that takes place after a bunch of events from City of Heavenly Fire. Simon is the main character in this series. After losing his memory, he has to go to Shadowhunter Academy and learn to find himself along with learning how to fight demons and other things. He needs to find the inner hero that he once was and has to live through the pained looks of his loved ones. This is basically a book where we might get some insight on what happens to Simon and where will this series take us next.

“Simon,” Isabelle interrupted, “you're talking like a nerd.”

The characters were all amazing, I loved everyone... OBVIOUSLY! Simon was awesome as always but I hated the fact that I had to see him suffer. The pain of not knowing anything and forgetting the most important things that have happened to you. The pain of forgetting the people you love is just so horrid. And seeing the others try to move past what happened hurts so much. Isabelle misses Simon and has to deal with the fact that he forgot about her... About them. We get to see a little bit of Jace, Clary, Alec and Isabelle and I loved that scene.

Welcome to Shadowhunter Academy

Reunited with Simon (Me in my dreams):

“Hey, Clary. You take care of yourself,” he said. “I know you can.” He paused. “And take care of Jace, that poor, helpless blond.”

I loved the part where Isabelle decides to walk into the classroom and tells everyone to back off from Simon. She is so awesome, beautiful, and fierce, I look up to her in ways because of this. Simon and Isabelle's lines to each other were painful. He wants to be the guy he used to be but he doesn't remember anything and he doesn't feel like he will be the hero.

Isabelle:

“None of this is fair. It isn't fair that part of your life was ripped from you. It's not fair that you were ripped away from me. I'm so angry Simon.”

I was glad that I listened to everyone and read this because I was missing out on so much. If you haven't read this short story or whatever it is called, I highly recommend you do so. It's best if you finish this series before Lady Midnight because of the spoilers. Also, you get to revisit the world and reunite with the characters you love!

“Maybe warlocks only liked other warlocks. Though Magnus did seem to like Alec quite a lot.”

P.S Happy Valentines Day!
