Dangerous Desires Episode

Heâ€™s everything she has ever desired. But thereâ€™s only one way to keep her man alive: let him go.

Dangerous Desires Book

With Nasir's life on the line, Eva makes a deal with the devil. She slips away to return to Dimitri, the mob boss who held her captive for years, only to step into a new world of trouble. Abducted by one of Dimitri's most cunning adversaries, Eva finds herself an unwitting pawn in a dangerous game of cat and mouse.

Dangerous Desires Imdb

When Eva disappears, Naz is prepared to do anything to find her. Tracking her to the remote regions of Portugal is just the beginning of the hunt. Bewitched by Eva's beauty, the darkly seductive spy who abducted her now has more than business on his mind, but the only way for the trio to defeat Dimitri is to work together despite the explosive desires threatening to consume them.

Dangerous Desires 2015

With a game so deadly and the stakes so high, Naz and Eva's love will be tested in ways neither of them could foresee, or perhaps survive.

Dangerous Desires is book two in the Dangerous Beauty trilogy by J.T. Geissinger. To start off with, I just want to say WOW! This author! She writes the most beautiful words! This would be classified as a romantic suspense but I don't think it matters what genre she is writing in. Her words are just perfection.

This book starts up right where the previous book left off. But here is where I have to say BUT! Because if you think you knew where things were going to go, you are in for a big surprise. This book starts up right where the previous book left off. But here is where I have to say BUT! Because if you think you knew where things were going to go, you are in for a big surprise. This book is one surprise after another. We are introduced to a new character, Killian, whom I'm pretty much in love with I might add.

Eva is probably the bravest woman I have ever read about. The love she and Naz have for one another is breath taking. There is nothing these two won't sacrifice for one another. What I love, though, is that they never lose the humor that they share with one another. They could be in the most stressful of situations and that banter is still there.

Naz is every bit the alpha, I'm the man and I'm going to protect my woman mentality. He goes nose to nose with Eva more than once because she will never again relinquish her power to any man, no matter how much she loves him. She wants to stand by Naz's side, not behind him. She wants to bring down the man who forced her to live with pain and torture the last seven years and she will be a part of the process.

dream or deserve.â€•

Naz also has all the words. That man! I swooned so much itâ€™s a wonder I didnâ€™t pass out.

I really canâ€™t say much more, other than to prepare yourselves for a crazy, wild ride. And prepare yourselves to sigh, swoon, gasp, smile, maybe even laugh out loud. This book/series has every single thing that I love. But I really have to again give all the credit to this amazing author for writing all the words. Yes, there is a cliff hanger. There is one more book to go, Dangerous Games, due out later this year. It canâ€™t get here fast enough.

4.5 STARS

She's all there is. This is all there is, this powerful thing that lives between us, this fierce and elemental force I'm no more able to control than I could control gravity.

It's a rare dang occasion when I enjoyed the second book in a trilogy even more than the first, but man. I devoured this one!

I've been utterly antsy to get my hands on the second installment of this trilogy ever since the jaw dropping cliffhanger in book one. Naz and Eva completely stole my heart in the last book, but it was nothing compared to what I experienced with their story in this one.

Eva was ready to make the ultimate sacrifice to protect the man she loves, even willingly hand herself back to the devil again. But just as she's determined to protect Naz, he's just as determined to protect her. But in order to protect the woman he's fallen so hard for, he needs to find her. And it's extremely hard to find someone when they go through a lot of trouble to ensure that they can't be found.

I don't want to give too much away about the plot in this book, so I won't say anything about it. What I will tell you is that there's a secondary character that was introduced here that I'm fairly certain I'd give an ovary to get a book for. Talk about your enigmatic and mysterious characters, because OMG! I NEED.

Eva and Naz are just as potent together. Their cute joking insults and their undying devotion for each other is captivating. You can't help but fall for these two. They are both so fiercely protective of each other. I love that Eva is no one's victim. This woman is a survivor and a fighter where Naz is a natural protector. And together, they're absolutely incendiary.

I'm in love. I'm so fucking in love. If I lose her, it will end me.

I devoured this book in one sitting! I couldn't put it down. And twist after delicious twist, it continued to own me until the very last page. Now if I could just survive the unbearable wait until the conclusion.

Talk about being on the edge of my seat! I don't think I have devoured a book so fast!

This starts right where we left off in book one. So yes, you gotta read book one first and this is not the last in the series. This is a trilogy. If you aren't much of a fan of trilogy's, I promise this one is worth it. This is such a consuming story I wish I could find more books like this one.

I don't want to give anything away, so I'm just going to say this is a romantic suspense story that rides the edge of cliff the whole way through. The heroine is in a very dangerous situation and the hero is desperate to protect her.

I swear there were moments in this book where I could hear the music in the background that warns you something is about to happen and I had to brace for impact.

I just have to mention that I absolutely love the addition of the new character. I'm so intrigued by him. I will pray to the author Gods that he survives in this series and gets his own book.

The third book can not come fast enough! I absolutely loved this! ...more

Oh my gosh! This author has done it again! She pulled me so deep into this story I wasn't even aware of my own surroundings! The drama, the suspense, the build up was incredible!

This picks up right where Dangerous Beauty left off. What follows is a chaotic unfolding of danger and drama as Eva fights to protect herself. Her innate ability to read people helps her to discern the murky character that holds her captive but fails her when it comes to another. There are some intense scenes so surprising, as well as shocking, that I found myself mentally looking around every corner afterwards.

Naz is left scrambling to figure out what is going on and in the process we're given some amazing images of how his mind works when it comes to protecting Eva. It's the kind of stuff that's my bread and jam. I loved his protective mindset.

• Tell him if Eva's in anything other than perfect health when I get there, I'll cut off his arms and legs and hang him on the wall and name him Art. And then I'll kill his entire family, all his friends, his pets, and everyone he's ever worked with. And then I'll burn down his house and take a rocket launcher to that f---ing ship and send it to the bottom of the ocean with him lashed to the mast, and his bloody stumps will attract all kinds of hungry sea creatures who will eat his goddamn guts out and lay their eggs inside his skull and gnaw on his bones. And then I'll drag up his picked-over carcass and cremate it and make urinal cakes from his ashes and piss on his remains every day for the rest of my life. •

And when this couple finally find a place of temporary peace, it was beautiful! They are just so good together, each emotionally healing the other. I loved knowing right here and now that they were meant

What I can say is that I absolutely loved this second book...maybe even a tad bit more than the first. Which might be because of a new mysteriously awesome character I

I very much enjoyed the first book in this series, Dangerous Beauty, well except for that cliffy at the end...didn't much enjoy that :P

So I am glad we finally got to see what happens next, waiting is not really my strong suit. I am not gonna share too much about it though, because I really don't want to spoiler it for anyone else.Â

No worries though... I am still deeply in love with Naz, he is so swoon-worthy.

I spend a major part of this book on the edge of my seat and the other part laughing my ass off. Thankfully the awesome back and forth banter is still present in this book ;)Â

It's just too bad that now the waiting starts all over again !! Let's just hope time flies.
